

Washington State Long-Term Air Transportation Study

Phase II Technical Report

Airport System Forecasts and Capacity Assessment

June 30, 2007

The following statement is provided as required by Paragraph 429.a of Federal Aviation Administration (FAA) Order 5100.38, Airport Improvement Program (AIP) Handbook:

The preparation of this document was financed in part through a planning grant (AIP 3-53-0000-05) from the FAA as provided under Section 505 of the Airport and Airway Improvement Act of 1982. The contents do not necessarily reflect the official views or policy of the FAA. Acceptance of this report by the FAA does not in any way constitute a commitment on the part of the United States to participate in any development depicted therein; nor does it indicate that the proposed development is environmentally acceptable in accordance with appropriate public laws.

In addition, this report was partially funded by grants from Washington State.

The report was developed through a joint effort with the Washington State Department of Transportation (WSDOT Aviation) and the SH&E study team, which included Simat, Helliesen & Eichner, Inc. (SH&E), W&H Pacific, URS Corp., Pacific Rim Research (PRR), and Cambridge Systematics, Inc. (CSI).

WSDOT Aviation expresses its appreciation to airport sponsors and the LATS Technical Advisory Committee for their participation in the development of this report.

TABLE OF CONTENTS

Table of Figures.....	vii
Executive Summary	1
Study Overview	1
LATS Is a Three Phase Effort.....	1
Public and Stakeholder Participation.....	2
What Was Accomplished in Phase II?.....	3
What Were the Key Findings of Phase II?.....	3
What Are the Next Steps?.....	9
Chapter 1: Introduction and Overview of the Phase II Report	11
Why Study Washington's Aviation System?.....	11
What is the State Airport System that Serves the Needs of Washington Businesses, Residents and Visitors?	12
How Did We Address Regional Aviation Performance?.....	16
Objectives and Key Components of Phase II	23
What Will You Find in this Report?	24
Chapter 2: What Changes are expected in the U.S. Airline Industry?	27
Why are Trends in the US Airline Industry Important to Washington State?.....	27
What is the Recent State of the US Airline Industry?	27
Carrier Strategy for Recovery	30
New Entrant Airlines	31
New International Aircraft.....	32
Changes in the Aircraft Fleet Operated by U.S. Regional Airlines	32
Changes in Service Levels at U.S. Airports.....	34
Why Are Small Communities Struggling to Maintain Airline Passenger Traffic and Services?	36
What Are the Implications for Commercial Air Service in Washington State?.....	37
Chapter 3: What changes are expected in General Aviation?	39
Why are General Aviation Trends Important to Washington?	39
What GA Trends Will have the Greatest Effect on Washington's Airports?	39

How Will Continued Growth of the Business Jet Fleet Affect Washington's Airports?	40
How Will Very Light Jets Affect Washington's Airports?	42
Will Washington Experience a Large Increase of Instrument Approaches and Other Changes from NexGen?	47
Will Other GA Trends Affect Washington's Airports?	49
Key Findings.....	52
Chapter 4: Are the State's Air Transportation Facilities Adequate for Serving Washington's Needs?	55
What is the Purpose of a Classification System for Airports?	55
What Are the Airport Classifications?	56
Performance Objectives	72
How Might Individual Airport Roles Change Based on Forecast Demand?.	97
Key Findings.....	99
Chapter 5: What Did We Learn About Future Activity?	103
Introduction.....	103
Why Were the Forecasts Prepared?	103
How Were the Forecasts Developed?	104
Review Process	104
Chapter 6: What Did We Learn About Commercial Service Activity?	105
Why is Commercial Airline Activity Important to Washington State?	105
Organization of This Chapter	107
Description of Existing Commercial Service Activity Across the State.....	107
Scope of Forecasts	113
Forecast Methodology	114
Forecast Results	116
Profile of Individual Airports	119
Key Findings.....	161
Chapter 7: What Did We Learn About General Aviation Activity?	165
Why is GA activity important to Washington State?.....	165
Description of existing activity across the state.....	166
Scope of forecasts	170
Forecast methodology.....	171

Forecast results	174
Key Findings.....	177
Chapter 8: What Did We Learn About Cargo Activity?	181
Why is Cargo Activity Important to Washington State?	181
What is Existing Activity across the State?	181
Scope of Forecasts	188
Forecast Methodology	189
Forecast Results	190
Key Findings.....	198
Chapter 9: What Did We Learn About Airport Capacity?.....	203
Introduction.....	203
Why Were the Capacity Analyses Prepared?	203
How Is Capacity Measured?	204
What Does the Capacity Analysis Tell Us About the Viability of System Improvement Strategies?	204
Chapter 10: What Did We Learn About Airfield Operations Capacity?	207
Why is it Important?	207
What Does the Current System Look Like?	207
What Was the Scope of Our Analysis?.....	219
Results - by category	220
Summary	230
Key Findings.....	231
Chapter 11: What Did We Learn About Passenger Terminal Capacity?	233
Why is it Important?	233
What does the current system look like?	233
What Was the Scope of Our Analysis?.....	236
Results.....	237
Key Findings.....	241

Chapter 12: What Did We Learn About Aircraft Storage Capacity?	243
Why is Aircraft Storage Capacity Important to Washington State?	243
What Is The Current Status of Aircraft Storage Capacity?.....	244
What Was the Scope of Our Analysis?.....	246
What Was the Forecast Methodology?	247
What Are The Aircraft Storage Analysis Results?	250
Key Findings.....	256
Chapter 13: What Did We Learn About Air Cargo Capacity?259	
Why is It Important?	259
What Does the Current System Look Like?	259
What Was the Scope of Our Analysis?.....	263
Key Findings.....	265
Chapter 14: What Did We Learn About Airspace Capacity?.269	
Why is it Important?	269
What Does the Current System Look Like?	270
What Was the Scope of Our Analysis?.....	272
Results.....	274
Airspace Analysis – Statewide Perspective	279
Key Findings.....	281
Chapter 15: Could High-Speed Rail Help to Alleviate Aviation Capacity Pressures?	283
What is the Significance of High-Speed Rail to the Washington Aviation System?.....	283
Feasibility Assessment.....	283
Market Demand Assessment.....	301
Rail / Air Connectivity.....	304
Key Findings.....	312
Chapter 16: What Did We Learn?.....	315
Statewide Key Findings.....	315
Special Emphasis Regions Key Findings	320

Chapter 17: What's Next?	325
What are the Council's Objectives?.....	325
What Are the Next Steps?.....	327
Appendix A: Detailed Table of the Washington State Airports	329
Appendix B: Washington State Long-term Air Transportation Study (LATS).....	335
Communication and Public Involvement Plan	335
Situation Analysis	338
Public Outreach / Public Involvement Objectives	340
Team Members and Affiliations	344
Public Communications Tools and Tasks.....	344
Aviation Technical Advisory Committee (ATAC).....	345
Aviation Stakeholder Outreach.....	346
Aviation Advisory Committee.....	347
Organizational Briefings.....	347
Appendix C: Public Outreach Summary.....	349
Workshop Summaries	349
Survey Findings	351
Survey Highlights	352
Key Findings.....	352
About the Respondents	355
Appendix D: List of Phase II Technical Memorandums	357
Appendix E: Glossary	359
Airport Abbreviations	361
Definitions	363
Appendix F: Bibliography	379

This Page Intentionally Left Blank
